

Go Fish!

vowel + e

Print pages 2-4 on cardstock. Background (page 5) is optional.

Object: Flex It practice. Make matches with the VCe paired cards: *tap/tape, hop/hope*, etc.

How to Play:

- Shuffle cards. Each player is dealt 5 cards.
- First player takes a turn by reading one of their cards, and asking for the paired card from another player.
 - Players must read their own card correctly, and then **FLEX** the vowel in the word to ask for its pair.
- If they get a match, they take another turn. If the player they asked doesn't have the matching card, then that player tells the asker to "Go Fish."
- If a match is made when "fishing from the deck" then that player gets another turn to ask someone else for a card. If no match is drawn, play moves to the next player.

Player with the most matches wins.
